

DIRT DELIVERY

1. Notification to Members will be on the April calendar.
2. Members will have the month of April to sign up for dirt delivery.
3. Delivery of dirt will be during the week before Memorial Day, weather permitting.
4. The minimum amount of dirt to be delivered is $\frac{1}{4}$ yard, which is equal to approximately one tractor bucket full.
5. Dirt will only be delivered where there are approved flower beds in the front or side of the townhouse. See Flowers/Flower Beds Policy for details.
6. No dirt will be delivered to townhouses where there are wood chips in the flower bed.
7. Dirt deliveries are subject to ground conditions (firmness). Some areas of the property may not be able to have dirt delivered until later in the spring or early summer.
8. No dirt will be put inside any flower bed that does not have adequate space to dump without possible damage to existing plants or shrubs.
9. If dirt is not placed directly in the flower bed, the Member must provide a tarp to put the dirt on. The Member will have to remove the dirt from the lawn area before damage is done to the lawn area (depending on weather conditions damage could occur within hours).
