

PLUMBING

The Cooperative is responsible for plumbing repairs and maintenance.

Minor stoppages in drains and toilets can usually be cleared with a plunger. It is a good idea to keep one available.

Major stoppages will be repaired and charged to you if they are caused by your negligence. To avoid major stoppages, do not flush disposable items (like flushable wipes, tampons/sanitary napkins, diapers, cardboard, Q-tips, plastic, cotton, etc.). These items should be thrown in waste containers.

Please report any plumbing malfunctions immediately in order to avoid damages to walls, floors, and ceilings.
